Business Information
— IN SEARCH FOR BUSINESS

Stimulate international growth

Trends Business Information, your source for international business information.

Is your company active in other countries or are you starting with a new **international challenge**? Trends Business Information offers a network of **local experts**, with business information of **200 million companies** in more than **220 countries**. Avoid financial risks and stimulate business opportunities across borders.

TRENDS BUSINESS INFORMATION, YOUR SOURCE FOR BUSINESS INFORMATION

Through the online platform, Trends Pro, you can quickly and easily consult the data of national and international companies. Is the country not online? no problem, because then we will request the report for you offline. That way you always have access to every report.

ONLINE AVAILABLE

EVERY REPORT IS UNIQUE

Every country has its own culture, habits and economic behavior. Save yourself time and let Trends Pro collect this information in a uniform and transparent way.

Trends Business Information is part of BIGnet, an international consortium where local suppliers of business information come together. That way we always guarantee the best quality and you have access to three uniform reports. You decide what information you need and will never pay too much.

BEDRIJFS- PROFIEL

- Identification

- Financial & administrative incidents
- Board of directors & structure
- Extended financial information
- Extra information

In addition to these reports, you will have the option of consulting even more extensive credit reports from local partners.

COMPANIES DO NOT STAND STILL

Companies are constantly evolving. To avoid having to manually check whether something has changed, you can follow your partner at all times thanks to our monitoring feature. Available in Belgium and 25 other countries.

MONITORING

ALL YOUR UPDATES COLLECTED IN ONE PLACE

On Trends Pro, you have your own inbox, where all messages about monitoring, report updates and offline reports will be collected. In this way you get a clear overview of what has changed at a glance and your own mailbox is no longer overloaded.
